EDUCATION

Computer Programming Diploma (Co-op)	2026 - Present (Expected 2028)
<i>Algonquin College, Ottawa, ON • GPA 3.9 • Dean's Honour List</i> Relevant coursework: Object-Oriented Programming (Java), Database Systems, Advanced Database Topics, OOP with Design Patterns, Enterprise Application Programming, Web Programming, Network Programming, Systems Analysis & Design, Operating System Fundamentals (Linux), Mobile Graphical Interface Programming.	
Practical React	2023
<i>SoftServe Academy, Online</i>	
Frontend Development	2022
<i>SoftServe IT Academy, Online</i>	
Bachelor's Degree, Marketing	2021 - 2024
<i>Alfred Nobel University, Dnipro, Ukraine</i>	

SKILLS

Languages: Java, JavaScript, TypeScript, Python, PHP, SQL / T-SQL
Frameworks & Libraries: Spring Boot, React, Redux, Node.js
Databases: Oracle, PostgreSQL, MySQL, SQL Server, Azure SQL, Microsoft Access
Tools & Practices: Git, Docker, Linux, JUnit, REST APIs, Agile / SDLC, Design Patterns, Systems Analysis & Design
Soft Skills: Problem Solving, Attention to Detail, Written & Oral Communication, Teamwork, Adaptability

EXPERIENCE

Administrator	Jun 2021 - Feb 2022
<i>KiddyChef • Dnipro, Ukraine</i> Ran daily front-of-house operations for a children's entertainment venue: order management and payments through the Poster POS system, basic bookkeeping, and coordinating staff during shifts.	
Remote Assistant	Feb 2022 - Present
<i>KiddyChef • Remote</i> Continued supporting the team remotely on an on-call basis: troubleshooting the Poster POS system and training new staff on the processes I used to run.	
Line Cook	2023 - Present
<i>The Keg Steakhouse + Bar • Ottawa, ON</i> Manage food prep and service in a high-volume commercial kitchen under strict quality, consistency, and timing standards.	

PROJECTS

Order & Inventory Management Platform	2026 - Present
<i>Personal Project • Java 17 / Spring Boot / Oracle</i> - Modular monolith backend (API, Application, Domain, Infrastructure layers) for B2B order and inventory management. - Transactional order processing with inventory stock reservation; JWT-based auth with role-based access control. - Oracle persistence with Flyway migrations, containerized with Docker; tested with JUnit 5, Mockito, and a dedicated Oracle test schema.	
Sports League Management Database	2026
<i>Academic Project • T-SQL / SQL Server / Azure SQL</i> Designed a relational database schema for league management with stored procedures, user-defined functions, and ROLLUP aggregations for reporting; deployed and tested on Azure SQL.	
Telegram Media Downloader	2023
<i>Personal Project • Python / Telethon</i> CLI tool to bulk-download media from Telegram channels and chats, with filtering by type, date range, and message offset, plus resumable/skip-existing downloads.	
Portfolio Website	2026
<i>Personal Project • HTML / CSS / JavaScript</i> Designed and built a fully responsive personal portfolio site from scratch with vanilla HTML, CSS, and JavaScript, no frameworks.
